

Ideation Phase

Define the Problem Statements

Date	03 October 2026
Team ID	SWTID-2026-1749
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	2 Marks

Problem Statement Format

I am	Describe customer with 3-4 key characteristics - who are they?	An IT Procurement Team member responsible for processing Standard Laptop requests in ServiceNow.
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	Process approved Standard Laptop requests efficiently and ensure the required configuration task is created and reaches the Hardware team.
but	Describe what problems or barriers stand in the way - what bothers them most?	The laptop configuration task may need to be created and assigned manually after request approval.
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	The existing process does not automatically create and route the Catalog Task to the Hardware team.
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Concerned about additional manual effort, delays in laptop provisioning, and the possibility of missed configuration tasks.

PS-1

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	IT Procurement Team	streamline the processing of approved Standard Laptop requests	the required laptop configuration task may need to be created and assigned manually	the existing process does not automatically create and route the Catalog Task to the Hardware team after approval	extra manual effort and concerns about delays or missed configuration tasks

PS-2

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-2	Employee requesting a Standard Laptop	receive the requested laptop after approval without unnecessary delay	the configuration activity may not start immediately after approval	post-approval task creation and assignment can require manual intervention	uncertainty and frustration caused by a longer wait for the configured laptop

PS-1 IT Procurement Team Perspective

I am	I'm trying to	But	Because	Which makes me feel
An IT Procurement Team member responsible for processing Standard Laptop requests	Process approved Standard Laptop requests efficiently and ensure the required configuration task reaches the Hardware team	The laptop configuration task may need to be created and assigned manually after approval	The existing process does not automatically create and route the Catalog Task to the Hardware team	Concerned about additional manual effort, delays, and missed configuration tasks

PS-2 Employee Requesting a Standard Laptop Perspective

I am	I'm trying to	But	Because	Which makes me feel
An employee requesting a Standard Laptop	Receive my configured laptop after the request is approved	The laptop configuration activity may not start immediately after approval	Creating and assigning the post-approval configuration task may require manual intervention	Uncertain and frustrated about the waiting time
