

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	03 October 2026
Team ID	SWTID-2026-1749
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Request Initiation	Standard laptop catalog item selection via Service Portal with auto-populated user and department metadata.
FR-2	Automated Approval Routing	Conditional approval routing to Reporting Manager and IT Procurement Lead via Email, Teams, or ServiceNow Portal.
FR-3	Flow Designer Task Creation	Automated execution of "Standard Laptop Task" flow post-approval, creating a Catalog Task with description "Laptop need to Configured" assigned to the "Hardware" group.
FR-4	Vendor PO Generation & Fulfillment	Automated REST API payload transmission to external hardware vendor endpoint upon approval for procurement and shipping.
FR-5	Delivery, Imaging & Staging	Staging, base OS image flashing, and device dispatch by Desktop Support Engineer upon device receipt.
FR-6	Asset Lifecycle & CMDB Sync	Automatic state transition in ServiceNow CMDB from "In Stock" to "In Use" upon deployment, followed by an automated user satisfaction survey.

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Simple, intuitive Service Catalog interface with pre-filled user metadata to ensure effortless laptop ordering.

NFR-2	Security	Role-based access control and system-user execution in Flow Designer, ensuring secure REST API calls for vendor integration.
NFR-3	Reliability	Consistent automated task execution without manual dropped tasks, ensuring real-time CMDB updates and tracking.
NFR-4	Performance	Instant catalog task generation and notification dispatch post-approval, minimizing overall procurement lead time.
NFR-5	Availability	High availability (24/7 access) of the ServiceNow Service Portal for placing and tracking procurement requests.
NFR-6	Scalability	Modular workflow architecture designed to handle scalable order volumes across all enterprise departments.
